DETAILED ACTION

Claims 2-16 are presented for examination.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors

Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology

Technical Amendments Act of 2002 do not apply when the reference is a U.S.

patent resulting directly or indirectly from an international application filed

before November 29, 2000. Therefore, the prior art date of the reference is

determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre
AIPA 35 U.S.C. 102(e)).

Art Unit: 2153

Claims 2-16 are rejected under 35 U.S.C. 102(e) as being anticipated by Ress et al USPN (6885658), herein "Ress".

As per claims 2-4,6-10 and 13-16 a network comprising:

a Media Gateway Controller (MGC) (fig. 3, 202)'

a Media Gateway proxy, said proxy coupled to said MGC and comprising (fig. 3, 300 and GW 304,06, and col. 3, lines 4-14): a first receiver that receives a message, said message containing an attribute, sub-command, and a destination address (col. 4,lines 43-65 see figs. 113-16); a memory, coupled to said first receiver, that stores said message and said attributes, each of said attributes corresponding to a selected one of said plurality of Media Gateways, each of said gateways having an address (col. 8, lines 52-66); a locator, coupled to said memory, that finds in said memory said address of a said selected Media Gateway using said destination address and said attribute (see fig 4 and 7 and col. 5, lines 62 to col. 6, line 19); and; a second receiver, coupled to said locator that receives the address of said gateway, said subcommand, and said attribute and forms messages Using said subcommand, said address, and said attribute (col. 4,lines 43-65 see figs. 113-16); and a plurality of Media Gateways coupled to said Media Gateway proxy (see fig. 3 and 7).

Further teaches Ress further teaches middleware that translates control and management functionalities passed on to it by the first interface and translates

these functionalities into appropriate requests to an internal MGC (col. 3, lines 4-20 and col. 4, lines 43-65 see figs. 113-16) and determining whether all replies have been received in response to said messages (col. 12, lines 11-65. See figs 13-17).

As per claims 5 and 11, Ress teaches the method of claim 10 wherein said protocol is MEGACO (col. 2, lines 22-42).

Conclusion

The prior made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yasin Barqadle whose telephone number is 571-272-3947. The examiner can normally be reached on 9:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Burgess can be reached on 571-272-3949. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9306 for regular communications and 703-746-7238 for After Final communications.
